When this . which Mr. Roosevelt is preparing for, no eloquence,

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint. torpid liver, or biliousness, chronic bower affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease texcept consumption accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing per-fect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root-all of which are highly praised as remedies for all the above mentioned affections by such minent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Billingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. H. of Cincinnati; Prof. John M. Scudden M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others conally eminent in their several school of practice.

The Golden Medical Discovery is the only medicine but un for sale through drogsists for like purposes, that has any such processonal emigranes. minent medical writers and teachers as

more than any number of ordinary testmonais. Open publicity of its formula
is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjec-tionable and besides is a most useful agent in the cure of all stomach as well as bron-chial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent, medical authorities, endorsing its ingre-Dr. R. V. Pierce, Buffalo, N. Y.

however great, will be strong enough to fix public attention upon the revision of schedules or the discussion of any domestic political abuse.

Considering how personally profitable foreign wars have been in the career of the late police commissioner of New York, one need not wonder at the evidence of the preparations now being made to jingo a successor to Mr. Roosevelt into the Presidency in 1908.

The Sub-School District Election.

Very little interest was manifested in the election in the Gainesville subwith when the convention de tax school district yesterday. In fact, that crucial question for the had it not been for the efforts of Supt. J. L. Kelley it is doubtful if the polls Washington President would have been opened. He finally k's Napoleanic move of mas- obtained the consent of D. A. Robertthe Pacific the greatest flo- son to act as clerk and Z. T. Taylor battelships ever assembled in and A. F. Harrod as inspectors, who a has prematurely revealed opened the polls and conducted the Those political purpose is as most quiet election ever held in day. In wihtdrawing his first Gainesville. The election was for the trustees and to fix the miliage to be levied for the next two years. There d, through Loeb, a second was no opposition to the present incumbents, Messrs. W. W. Hampton. G. W. Hyde and J. H. Vidal, and they were re-elected, the latter two receiving 34 votes each and the former 33. The levy of three mills, which has heretofore prevailed, was adopted for the next two years.

WASHINGTON NEWS LETTER

The Harriman Report a Matter of Practical Politics.

NOT LIKELY TO BE PROSECUTED

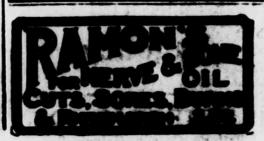

Matters May Be Allowed to Drag Until Statute of Limitation Applies. Southern People Manifest Little Interest in Government Jobs.

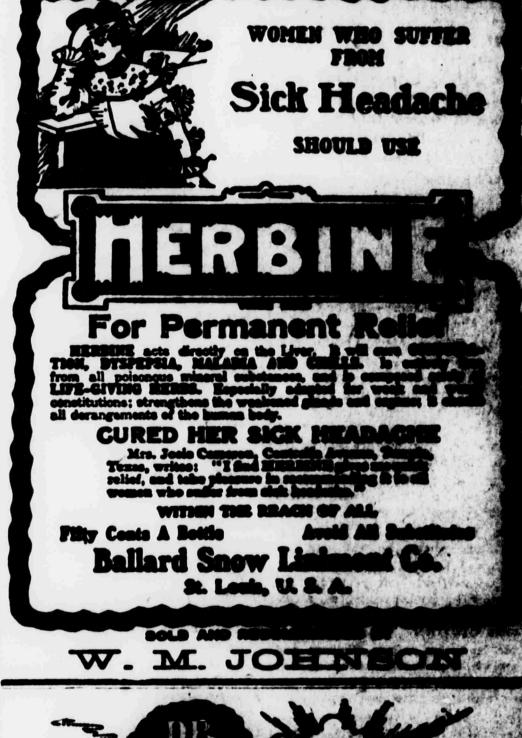

(Special Correspondence.)

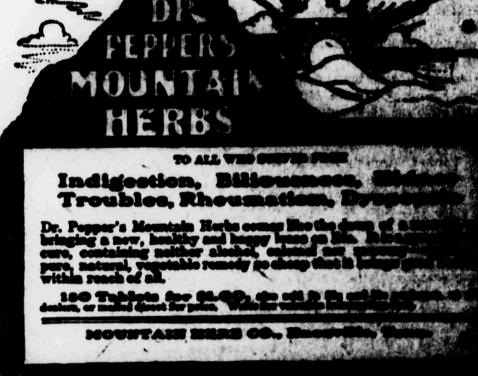

Washington, D. C., July 22.-In spite of all that his been said to the contrary, the question of whether or not E. H. Harriman shall be subjected to Federal prosecution for his railroad manipulations is largely a matter of practical politics. The long expected report of the Interstate Commerce Commission on the Harriman investigation has been rendered and is now in the hands of the President at Oyster Bay. This report is most of it old matter, with which the public is familiar through much newspaper discussion. It goes into the inflation of the Alton securities, the lease of the San Pedro Road, the control of the Union Pacific and the Southern Pacific by the same management, although they have been de cided to be competing lines, and various other incursions of the Harriman financiers into the joint realms of railroads and politics. The report makes but one practical recommendation, and that is that a railroad should be prohibited by law from purchasing the securities of another railroad. This was Mr. Harriman's method whereby he was gradually absorbing all the railroad systems of the West and by which he hoped eventually to bring all the railroads of the United States under a single management. The report of the commission goes into detail over all these transactions and speaks in scathing terms of many of the practices. But the word "profecution" is not once mentioned in the report, and the whole thing is left to the Attorney-General for treatment or not, as he deems advisable. There has been considerable criticism of this report and it has been commented upon as weakkneed and ineffective. There was quite as much discussion in the commission as outside as to whether any definite recommendation should be de looking to either criminal civi! prosecution. Frank B. Kellogs. the special attorney of the commission, who practically wrote the report, was much in favor of prosecution; so was Commissioner Judson Clements. it was understood that Commissioner Clark was also in favor of prosecution and Commissioner Lane was wavering; but after almost innumerable conferences and weeks of delay, the report was written simply as an exhibit, without recommendation except in regard to the purchase of securities mentioned. Now it is known that Attorney-Geenral Bonaparte is rather in favor of proseting Mr. Harriman. He made this plain at the famous trust prosecution conference, held at the White House just before the President went away for the summer. But there is too much at stake in the political line to make prosecution advisable just now. It is highly probable that the matter will be allowed to rest without action until close to the time that some of the acts will be out-lawed by the statute of limitations. Then there may be action, but it will depend

Civil Service Commissioner Mc-Ilheny has just returned from a trip through the South, where he has been endeavoring to interest the public in the civil service as a life career for young men. He has delivered a number of lectures before the Young Men's Christian associations and Southern colleges and other educational institutions. The civil service is decidedly short of men competent to take the lower cierical positions. People in the South have shown little inclination to select Government work as even a temporary calling; much less has there been any inclination either North or South to make the civil service a life career. It has been looked on more as a stepping-stone

largely on the political situation..
